

Montana High Tech Business Alliance

Membership Application

Who We Are:

The Montana High Tech Business Alliance is a nonpartisan statewide organization of 300+ high tech and manufacturing firms and affiliates. The Alliance is recognized as a 501(c)(6) nonprofit trade association. You can see a list of current members on our website, <http://mthightech.org/members/>.

A Montana High Tech Business Alliance survey conducted by the University of Montana Bureau of Business and Economic Research found this industry is growing 8-10 times the overall Montana economy and pays twice the median wage.

Membership in the Alliance is open to for-profit companies engaged in high tech and manufacturing that have operations in Montana. Organizations that are not in the high tech industry may join as affiliate members. High tech is defined as firms that:

- make or sell high tech products,
- provide professional services or consulting related to high tech,
- conduct e-commerce, or
- engage in manufacturing using skilled labor.

Member Benefits:

- **Connect** with tech leaders across the state at quarterly networking events.
- **Promote** your company and Montana's strong high tech and manufacturing sector through our e-newsletter, website and other communications channels.
- **Accelerate** growth by recruiting through our high tech jobs portal.

Higher membership levels correspond to greater visibility on our website, marketing, and promotions, and to the number of guests (and their significant others) your company can bring to Alliance events.

We also host CEO Roundtables for members at the Bronze level and higher prior to the networking receptions. One principal from each company is invited to attend.

How to Join:

Fill in the attached form, or complete the application online at mthightech.org/join
